This program furthers the Department’s mission by supporting organizations that demonstrate innovative strategies to create, expand, or enhance use of technology on a national scale or regional projects that can be replicated nationally to improve response, services, and access for victims of crime.
OVC Mission Statement (Pg. 4)

OVC is committed to enhancing the Nation’s capacity to assist crime victims and to providing leadership in changing policies and practices to promote justice and healing for all victims of crime.
OVC seeks to provide funding to organizations that demonstrate innovative strategies to create, expand, or enhance the use of technology in innovative ways to interact directly with crime victims and/or provide information, referral, crisis assistance, and longer term help.
Program Scope (Pg. 4)

• OVC will support national-scope initiatives and regional initiatives (that can be replicated nationally) to maximize the use of technology to improve and increase access to crime victim services.

• Funding under this initiative may support technology development and maintenance; the staff required to operate, update, and maintain the proposed platform or service; training and technical assistance on the purpose and use of the technology (including outreach and publicity activities); and staff engaged in coalition-building activities regarding the use of technology.

• This funding should not supplant or duplicate currently funded initiatives in these areas.

• Applicants who propose to use this funding for ongoing, rather than new, initiatives must specify how these funds would be used to expand or enhance current services while not duplicating existing efforts.
The goal of this program is to develop innovative strategies to create, expand, or enhance the use of technology to improve response, services, and access for victims of crime.
Deliverables

• Direct service provision to crime victims, using trauma-informed approaches that protect the safety and confidentiality of victims.

• Culturally and linguistically appropriate community outreach events and materials.

• Resources for service providers and criminal justice stakeholders.

• A final report describing project activities, promising practices, challenges encountered, and solutions to address those challenges in order to improve outcomes for crime victims.

• Under this solicitation, only one application by any particular applicant entity will be considered. An entity may, however, be proposed as a subrecipient (subgrantee) in more than one application.
